

**One address for drug stock-outs
in Global Fund-supported programs**
STOCKOUTS@theglobalfund.org

Investing in our future

The Global Fund

To Fight AIDS, Tuberculosis and Malaria

The Global Fund to Fight AIDS, Tuberculosis and Malaria is launching a new service aimed at helping to prevent and mitigate drug stock-outs in countries.

If you are aware of any risk of stock-out of antiretroviral (ARV), anti-TB or antimalarial drugs – or any other lifesaving medicines – in Global Fund-supported programs, we would highly appreciate hearing from you. Send an email to **STOCKOUTS@theglobalfund.org**

Please Indicate:

- where the stock-out is occurring or is about to occur
- which drugs are at risk and
- any additional information you think could be useful (such as the root cause of the stock-out event).

Since its creation in 2002, the Global Fund has become the dominant financier of programs to fight AIDS, tuberculosis and malaria, with approved funding of US\$ 19.4 billion for more than 600 programs in 145 countries.
